Sarah Sabrosa

FULL STACK DEVELOPER

TECHNICAL PROJECTS & EXPERIENCE

Web Developer | Slough Council (Slough Music Service)

2025 – present

- Full-stack maintenance and development of the live regional government music platform.
- Engineering cross-device responsive UI components using JavaScript and Bootstrap.
- Maximizing search visibility and loading performance through targeted SEO practices.

Head Developer | FiveM GTA V Servers

- Programmed custom backend logic scripts to govern multiplayer mechanics.
- Architected server infrastructure, managed Git version control, and optimized database storage.
- Conducted runtime debugging to reduce latency and maximize server performance.

Freelance Full-Stack Developer | E-Commerce & Websites

- E-Commerce & Retail Apps: Built interactive multi-page storefronts (including Handy Gifts Store) with custom product catalogs and ordering workflows.
- Bespoke Web Solutions: Deployed a diverse range of responsive client websites featuring interactive JavaScript modules and optimized UI layouts.

PROFESSIONAL HISTORY

Salesforce Coordinator | Queens Park Rangers Football Club

- Managed core Salesforce CRM data workflows, analyzing records and creating data profiles.
- Designed digital presentation layouts for brand campaigns using visual hierarchy principles.
- Resolved real-time operational and technical bottlenecks to ensure seamless venue workflows.

RBKC (Youth Offending Team)

- Maintained absolute database logging accuracy within high-security, confidential young person data systems.
- Managed secure file manipulation and cross-agency data tracking with strict compliance.
